## Typical Product Specifications & Properties

# 1,6-Dibromohexane

CAS Number: : 629-03-8

| Specifications   | Limits                                             |
|------------------|----------------------------------------------------|
| Molecular weight | 243.97                                             |
| EINECS           | 211-067-2                                          |
| Color            | colorless to brownish-yellow                       |
| Melting Point    | -2-2.5 &deg;C                                      |
| Flash Point      | 110 &deg;C                                         |
| Density          | 1.586 g/mL at 25 &deg;C                            |
| Water solubility | insoluble                                          |
| BRN Number       | 1236322                                            |
| Stability        | Stable. Incompatible with strong oxidizing agents. |
| Boiling Point    | 243 &deg;C                                         |
| Refractive Index | 1.507                                              |
