## Typical Product Specifications & Properties

# 1,6-Dihydroxynaphthalene

CAS Number: : 575-44-0

| Specifications     | Limits                                                                              |
|--------------------|-------------------------------------------------------------------------------------|
| Slightly Soluble   | in water                                                                            |
| Melting Point      | 138 c                                                                               |
| Molecular weight   | 160.06                                                                              |
| Color              | colorless prisms                                                                    |
| Solubility         | alcohol                                                                             |
