## Typical Product Specifications & Properties

# Ammonium Sulfate ACS

CAS Number: : 7783-20-2

| Specifications   | Limits                                   |
|------------------|------------------------------------------|
| Density          | 1.77                                     |
| Melting Point    | 280 c (dec.)                             |
| Insolubility     | in alcohol, acetone                      |
| Odor             | odorless                                 |
| Molecular weight | 132.16                                   |
| Color            | colorless or white crystal or granulated |
| Solubility       | water                                    |
