## Typical Product Specifications & Properties

# Boron Proteinate

CAS Number: : 7440-42-8

| Specifications    | Limits                 |
|-------------------|------------------------|
| Density           | 2.45                   |
| B Content         | 5.0 - 7.5%             |
| Color             | Off White to Light Tan |
| Mercury           | <1ppm                  |
| Lead              | <1ppm                  |
| Arsenic           | <1ppm                  |
| Coliform          | Negative               |
| Salmonella        | Negative               |
| Total Plate Count | Less than 3000/gram    |
| Loss on Drying    | NMT 4%                 |
| pH                | 4-7                    |
| Staphylococcus    | Negative               |
