## Typical Product Specifications & Properties

# coconut extract

CAS Number: : 8001-31-8

| Specifications        | Limits                            |
|-----------------------|-----------------------------------|
| Density               | 0.903 (04 c)                      |
| Surface Tension       | 33.4 dynescm                      |
| Saponification number | 255-258                           |
| Practically Insoluble | in water                          |
| Very Soluble          | in chloroform, ether, cs2         |
| Refractive Index      | 1.4485-1.4495                     |
| Iodine Number         | 8-9.5                             |
| Melting Point         | 21-27 c                           |
| Acid Number           | 6                                 |
| Flash Point           | (cc) 550 f                        |
| Solubility            | oxygenated and chlorinated solvs. |
