## Typical Product Specifications & Properties

# Nat. Dimethyl Sulfide

CAS Number: : 75-18-3

| Specifications                 | Limits                            |
|--------------------------------|-----------------------------------|
| Density                        | 0.8458                            |
| Auto/Self Ignition Temperature | temp. 206 c                       |
| Odor                           | disagreeable cabbage-like odor    |
| Insolubility                   | in water                          |
| Melting Point                  | -83.2 c                           |
| Refractive Index               | 1.435 (20 c)                      |
| Molecular weight               | 62.14                             |
| Color                          | colorless to straw-colored liquid |
| Flash Point                    | -38 c                             |
| Solubility                     | alcohol, ether, oxygenated solvs. |
| Boiling Point                  | 37.5-38 c                         |
