## Typical Product Specifications & Properties

# 2,6-Dichloro-3-nitropyridine

CAS Number: : 16013-85-7

| Specifications     | Limits                                                                              |
|--------------------|-------------------------------------------------------------------------------------|
| Molecular weight   | 192.99                                                                              |
| Melting Point      | 55-60 C                                                                             |
| Appearance         | Light yellow crystalline powder                                                     |
| Chemical Structure |  |
