## Typical Product Specifications & Properties

# 2-Bromobiphenyl

CAS Number: : 2052-07-5

| Specifications     | Limits                                                                                                                       |
|--------------------|------------------------------------------------------------------------------------------------------------------------------|
| Density            | 1.21715 gml                                                                                                                  |
| Purity             | 98.0% min                                                                                                                    |
| Insolubility       | in water                                                                                                                     |
| Melting Point      | 1.5-2.0 c                                                                                                                    |
| Molecular weight   | 233.12                                                                                                                       |
| Flash Point        | 109 c                                                                                                                        |
| Solubility         | 95 ethanol, ether, benzene                                                                                                   |
| Boiling Point      | 296-298 c                                                                                                                    |
