## Typical Product Specifications & Properties

# 4-Acetoxycinnamic Acid

CAS Number: : 15486-19-8

| Specifications   | Limits                                                                        |
|------------------|-------------------------------------------------------------------------------|
| Molecular weight | 206.19                                                                        |
| EINECS           | 239-512-6                                                                     |
| SMILES           | <chem>O=C(Oc1ccc(cc1)\C=C\C(=O)O)C</chem>                                     |
| InChI            | 1S/C11H10O4/c1-8(12)15-10-5-2-9(3-6-10)4-7-11(13)14/h2-7H,1H3,(H,13,14)/b7-4+ |
| InChIKey         | BYHBHNBISXCEP-QPJXVBHSA-N                                                     |
| Melting Point    | 205-208&deg;C                                                                 |
| Boiling Point    | 209-211                                                                       |
| BRN Number       | 2645987                                                                       |
