## Typical Product Specifications & Properties

# 4-Hydrazinobenzoic acid

CAS Number: : 619-67-0

| Specifications     | Limits                                                                                                                 |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Appearance         | White crystalline powder                                                                                               |
| Molecular weight   | 152.15                                                                                                                 |
| Melting Point      | 218 C                                                                                                                  |
| Chemical Structure | <br><chem>NC(=O)c1ccc(NN)cc1</chem> |
