## Typical Product Specifications & Properties

# 4-penten-1-al

CAS Number: : 2100-17-6

| Specifications     | Limits                                                                              |
|--------------------|-------------------------------------------------------------------------------------|
| Appearance         | colorless clear liquid                                                              |
| Assay              | 95.00 to 100.00 %                                                                   |
| Pounds/Gallon      | 7.065 to 7.114                                                                      |
| Refractive Index   | 1.41300 to 1.42000 @ 20.00 °C                                                       |
| logP (o/w)         | 1.12                                                                                |
| Boiling Point      | 97.00 to 99.00 °C. @ 760.00 mm Hg                                                   |
| Specific gravity   | 0.84900 to 0.85500 @ 25.00 °C                                                       |
| Vapor Pressure     | 42.900000 mm/Hg @ 25.00 °C                                                          |
| Odor               | roasted                                                                             |
