## Typical Product Specifications & Properties

# Calcium thioglycolate

CAS Number: : 814-71-1 65208-41-5

| Specifications               | Limits                                 |
|------------------------------|----------------------------------------|
| Molecular weight             | 222.30                                 |
| EINECS                       | 212-402-5                              |
| Atmospheric OH Rate Constant | 1.45E-12 cm <sup>3</sup> /molecule-sec |
| log P (octanol-water)        | -2.490                                 |
| Merck                        | 1711                                   |
