## Typical Product Specifications & Properties

# Dibasic Ester

CAS Number: : 106-65-0

| Specifications           | Limits                     |
|--------------------------|----------------------------|
| Density                  | 1.119 (204 c)              |
| Dimethyl Succinate       | 15-30%                     |
| Water (wt)               | 0.10% max                  |
| Type                     | DBE1                       |
| Dimethyl Adipate         | 10-25%                     |
| Color (APHA)             | 15 max                     |
| Dimethyl Glutarate       | 55-65%                     |
| Distillation Range (95%) | 196-230°C                  |
| Appearance               | Clear and colorless liquid |
| Acidity (mg KOH)         | 0.30% max                  |
| Ester content            | 99% min                    |
| Melting Point            | 16-19 c                    |
