## Typical Product Specifications & Properties

# Dipropylene Glycol Reagent Grade

CAS Number: : 110-98-5

| Specifications          | Limits           |
|-------------------------|------------------|
| Density                 | 1.023            |
| Very Soluble            | in diethyl ether |
| Specific Gravity (20°C) | 1.023            |
| Distillation Range      | 230.2~233.2      |
| Color (Pt-Co scale)     | 10 max           |
| Acidity as Acetic Acid  | 0.001% max       |
| Chloride as Cl          | 1ppm max         |
| Water (wt)              | 0.10% max        |
| Suspended Matter        | Does Not Contain |
| Iron                    | 0.1ppm max       |
| Residue after ignition  | 0.005% max       |
| Vapor Pressure          | 1 mm (73.8 c)    |

| Specifications   | Limits                            |
|------------------|-----------------------------------|
| Odor             | nearly odorless                   |
| Refractive Index | 1.4410                            |
| Molecular weight | 134.18                            |
| Color            | colorless slightly viscous liquid |
| Flash Point      | (oc) 124 c                        |
| Solubility       | ethanol, toluene, water           |
| Boiling Point    | 233 c                             |
