## Typical Product Specifications & Properties

# DL-erythro-Dihydrosphingosine

CAS Number: : 3102-56-5

| Specifications | Limits                                                                                                                                                       |
|----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Form           | Powder                                                                                                                                                       |
| Solubility     | Soluble in water (partly miscible). Soluble in chloroform.<br>Soluble in 100% warm ethanol (25 mg/ml). Soluble in warm DMSO (25 mg/ml). Soluble in methanol. |
| Formula Weight | 301.51                                                                                                                                                       |
