## Typical Product Specifications & Properties

### (E)-3-hexen-1-al

CAS Number: : 69112-21-6

| Specifications     | Limits                                                                              |
|--------------------|-------------------------------------------------------------------------------------|
| Appearance         | colorless clear liquid                                                              |
| Boiling Point      | 126.00 to 127.00 °C. @ 760.00 mm Hg                                                 |
| logP (o/w)         | 1.73                                                                                |
| Vapor Pressure     | 11.200000 mm/Hg @ 25.00 °C                                                          |
| Flash Point        | 65.00 °F.TCC                                                                        |
| Assay              | 95.00 to 100.00 % sum of isomers                                                    |
| Odor               | natural green fruity apple                                                          |
| Molecular weight   | 98.16                                                                               |
