## Typical Product Specifications & Properties

# Manganese glycerophosphate

CAS Number: : 1320-46-3

| Specifications   | Limits                                                                                                                                 |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Molecular weight | 478.04                                                                                                                                 |
| SMILES           | <chem>O(C(CCO)CCO)P([O-])([O-])=O.O=P([O-])([O-])C[C@H](CO)O.[Mn+2].[Mn+2]</chem>                                                      |
