Typical Product Specifications & Properties

Monosodium Citrate

CAS Number: : 18996-35-5

Specifications	Limits
Appearance	White, fine or crystalline granular powder
Odor	Odorless
Taste	Slightly acidic taste
Melting Point	212 c
Molecular weight	214.11
Chemical Structure	 The chemical structure shows a central carbon atom bonded to a carboxylate group (COO-) and a carboxylic acid group (COOH). This central carbon is also bonded to two other carbon atoms, each of which is part of a carboxylate group (COO-). A sodium ion (Na+) is shown near one of the carboxylate groups. The structure is overlaid with the Parchem logo and text.
