

Typical Product Specifications & Properties

trans-4-Methyl-2-Pentene

CAS Number: : 674-76-0

Specifications	Limits
Chemical Structure	 The image shows the chemical structure of trans-4-methyl-2-pentene, which is a five-carbon chain with a double bond between the second and third carbons, and a methyl group on the fourth carbon. The trans configuration is indicated by the hydrogen atoms on the double bond being on opposite sides. Below the structure is the Parchem logo, which consists of two interlocking circles above the word 'parchem' in a bold, lowercase font, with the tagline 'fine & specialty chemicals' in a smaller font below it.
