## Typical Product Specifications & Properties

# B-D-Glucose Pentaacetate

CAS Number: : 604-69-3

| Specifications     | Limits                                                                                                                                                                                                                                                                                                                                                               |

| Chemical Structure | <br>The chemical structure shows a glucose molecule in its cyclic form, with all five hydroxyl groups acetylated. The structure is labeled with 'R' and 'S' configurations at the chiral centers. The image is watermarked with the Parchem logo and 'fine & specialty chemicals'. |
