

## Typical Product Specifications & Properties

# **(-)-cis-2-Benzamidocyclohexanecarboxylic Acid**

CAS Number: : 26693-55-0

| Specifications   | Limits                    |
|------------------|---------------------------|
| Molecular weight | 247.29                    |
| Refractive Index | -36.5 &deg; (C=0.5, EtOH) |
| Melting Point    | 205-209 &deg;C            |
