## Typical Product Specifications & Properties

# (E,E/E,Z)-tobacco cyclohexenone

CAS Number: : 13215-88-8

| Specifications   | Limits                                                                               |
|------------------|--------------------------------------------------------------------------------------|
| Appearance       | pale yellow to yellow clear liquid                                                   |
| Assay            | 95.00 to 100.00 % sum of isomers                                                     |
| Specific gravity | 0.98500 to 1.00500 @ 25.00 °C                                                        |
| Pounds/Gallon    | 8.196 to 8.363                                                                       |
| Refractive Index | 1.53600 to 1.55600 @ 20.00 °C                                                        |
| Boiling Point    | 288.00 to 289.00 °C. @ 760.00 mm Hg                                                  |
| Flash Point      | > 200.00 °F.TCC                                                                      |
| logP (o/w)       | 3.38                                                                                 |
| Shelf Life       | 24 month(s) or longer if stored properly                                             |
| Odor Type        | tobacco                                                                              |
| Odor             | sweet acorn nut skin tobacco spicy                                                   |
| Storage          | store in cool, dry place in tightly sealed containers, protected from heat and light |
