## Typical Product Specifications & Properties

# (Z)-3-hexen-1-yl pyruvate

CAS Number: : 68133-76-6

| Specifications   | Limits                                                                                 |
|------------------|----------------------------------------------------------------------------------------|
| Specific gravity | 0.98200 to 0.99000 @ 25.00 °C                                                          |
| Pounds/Gallon    | 8.171 to 8.238                                                                         |
| Boiling Point    | 75.00 to 77.00 °C. @ 5.00 mm Hg                                                        |
| logP (o/w)       | 1.85                                                                                   |
| Taste            | Oily green cucumber, nuances of apple, berry, cherry, watermelon                       |
| Boiling Point    | 65.00 °C. @ 0.10 mm Hg                                                                 |
| Vapor Pressure   | 0.053900 mm/Hg @ 25.00 °C                                                              |
| Odor Type        | green                                                                                  |
| Assay            | 98.00 to 100.00 % sum of isomers                                                       |
| Refractive Index | 1.43700 to 1.44500 @ 20.00 °C                                                          |
| Flash Point      | 200.00 °F.TCC                                                                          |
| Odor             | Green, oily, fatty, cucumber vegetative, fruity melon rind, hint of a floral green tea |
