## Typical Product Specifications & Properties

# 1,1,3,3-Tetramethylguanidine

CAS Number: : 80-70-6

| Specifications   | Limits                        |
|------------------|-------------------------------|
| Odor             | mild ammoniacal odor          |
| Refractive Index | 1.4692                        |
| Molecular weight | 115.17                        |
| Color            | colorless liquid              |
| Flash Point      | 60 c                          |
| Specific gravity | 0.918                         |
| Solubility       | water forming alkaline solns. |
| Boiling Point    | 160 c                         |
