## Typical Product Specifications & Properties

# 1-(3-Chloro Phenyl)Piperazine

CAS Number: : 6640-24-0

| Specifications      | Limits                                                             |
|---------------------|--------------------------------------------------------------------|
| Molecular weight    | 196.68                                                             |
| EINECS              | 229-654-7                                                          |
| InChI               | 1S/C10H13ClN2/c11-9-2-1-3-10(8-9)13-6-4-12-5-7-13/h1-3,8,12H,4-7H2 |
| InChIKey            | VHFVKMTVMIZMIK-UHFFFAOYSA-N                                        |
| Density             | 1.193                                                              |
| Refractive Index    | 1,598-1,600                                                        |
| Melting Point       | 210-214&deg;C                                                      |
| Boiling Point       | 105 &deg;C                                                         |
| Storage Temperature | -20°C Freezer, Under Inert Atmosphere                              |
