

Typical Product Specifications & Properties

2-{[2-(Ethylsulfanyl)ethyl]sulfanyl}pyridine

CAS Number: : 112523-44-1

Specifications	Limits
Chemical Structure	 <p>The chemical structure shows a pyridine ring substituted at the 2-position with a 2-ethylthioethylthio group. The structure is drawn with stereochemistry, showing a chair-like conformation for the ethylthioethylthio chain. A watermark for 'parchem fine & specialty chemicals' is visible over the structure.</p>
