## Typical Product Specifications & Properties

# 2-[3-(3-ethyl-3H-benzothiazol-2-ylidene)-2-methylprop-1-enyl]-3-(2-hydroxyethyl)benzothiazolium brom

CAS Number: : 84434-66-2

| Specifications   | Limits                                                                                                                                               |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
