

Typical Product Specifications & Properties

2-(4-Methylbenzoyl)-6-methoxypyridine

CAS Number: : 10441-15-3

| Specifications | Limits |
|--------------------|--|
| Chemical Structure |  <p>The chemical structure shows a 6-methoxypyridine ring substituted at the 2-position with a 4-methylbenzoyl group. The pyridine ring has a nitrogen atom at the bottom. The benzoyl group consists of a carbonyl group (C=O) attached to a benzene ring, which has a methyl group (CH₃) at the para position. Stereochemistry is indicated with wedges and dashes at the chiral centers in the pyridine ring.</p> |
