## Typical Product Specifications & Properties

# 2-acetamido-5- [[ (phenylamino) carbonyl] amino]k acid

CAS Number: : 85237-61-2

| Specifications   | Limits                                                                                                                     |
|------------------|----------------------------------------------------------------------------------------------------------------------------|
| Molecular weight | 313.31                                                                                                                     |
| EINECS           | 286-421-2                                                                                                                  |
| SMILES           | <chem>CC(=O)Nc1ccc(cc1C(=O)O)NC(=O)Nc2ccccc2</chem>                                                                        |
| InChI            | COOFKYGVLDDFCE-UHFFFAOYSA-N                                                                                                |
