

Typical Product Specifications & Properties

2-Amino-6-(4-fluorobenzylamino)-3-nitropyridine

CAS Number: : 33400-49-6

|                  |           |
|------------------|-----------|
| Specifications   | Limits    |
| Molecular weight | 262.24    |
| EINECS           | 251-498-3 |
