## Typical Product Specifications & Properties

# 2-Bromo-3-methylpyridine

CAS Number: : 3430-17-9

| Specifications     | Limits                                                                              |
|--------------------|-------------------------------------------------------------------------------------|
| Appearance         | Light yellow clear liquid                                                           |
| Boiling Point      | 218-219 C                                                                           |
| Molecular weight   | 172.02                                                                              |
