

Typical Product Specifications & Properties

2- [(Dimethylamino)methyl]propanedia

CAS Number: : 1559064-05-9

Specifications	Limits
Chemical Structure	 The chemical structure is a complex polycyclic molecule. It features a central ring system with a dimethylamino group (N(CH ₃) ₂) attached to one of the rings. There is also a hydroxyl group (OH) attached to another part of the structure. The molecule is shown in a 3D perspective with stereochemistry indicated by wedges and dashes. A watermark for 'parchem fine & specialty chemicals' is visible in the background of the structure.
