## Typical Product Specifications & Properties

# 2-ethylhexyl benzoate

CAS Number: : 5444-75-7

| Specifications     | Limits                                                                              |
|--------------------|-------------------------------------------------------------------------------------|
| Appearance         | colorless clear oily liquid                                                         |
| Specific gravity   | 0.96300 to 0.97300 @ 20.00 °C                                                       |
| Refractive Index   | 1.48700 to 1.49700 @ 20.00 °C                                                       |
| Boiling Point      | 170.00 °C. @ 20.00 mm Hg                                                            |
| Flash Point        | 269.00 °F.TCC                                                                       |
| Odor               | mild ethereal                                                                       |
| Pounds/Gallon      | 8.022 to 8.106                                                                      |
| Odor Type          | ethereal                                                                            |
| Assay              | 95.00 to 100.00 %                                                                   |
| Vapor Pressure     | 0.000500 mm/Hg @ 25.00 °C                                                           |
| logP (o/w)         | 5.73                                                                                |
