

Typical Product Specifications & Properties

2-(Methylsulfonyl)ethyl acetimidate

CAS Number: : 1427498-32-5

Specifications	Limits
Chemical Structure	 <p>The chemical structure shows a complex molecule with a benzene ring, a fused five-membered ring containing an oxygen atom, and a side chain with a nitrogen atom and a methylsulfonyl group. The structure is overlaid with a large, faint 'parchem' watermark and the text 'fine & specialty chemicals'.</p>
