

Typical Product Specifications & Properties

2-Propoxyethyl Chloride

CAS Number: : 42149-74-6

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of 2-propoxyethyl chloride, which consists of a propyl chain attached to an oxygen atom, which is further attached to another propyl chain ending in a chlorine atom. The structure is rendered in a light gray color. Below the structure is the Parchem logo, which features two interlocking circles above the word "parchem" in a lowercase, sans-serif font, with the tagline "fine & specialty chemicals" underneath.</p>
