## Typical Product Specifications & Properties

# 3-Bromo-5-fluoro-2-methoxypyridine

CAS Number: : 884494-81-9

| Specifications     | Limits                                                                                                                                                                                                                                                                                                                    |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Molecular weight   | 206.01                                                                                                                                                                                                                                                                                                                    |
| Appearance         | light yellow clear liquid                                                                                                                                                                                                                                                                                                 |
| Chemical Structure |  <p>The chemical structure shows a pyridine ring with a methoxy group (-OCH<sub>3</sub>) at position 2, a bromine atom (-Br) at position 3, and a fluorine atom (-F) at position 5. The Parchem logo is overlaid on the structure.</p> |
