## Typical Product Specifications & Properties

# 4-(t-Butyl)-2-Ethoxy Benzoic Acid

CAS Number: : 796875-53-1

| Specifications     | Limits                                                                                                                                                                                                                                                                                                                           |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Molecular weight   | 222.28                                                                                                                                                                                                                                                                                                                           |
| Appearance         | Light brown crystalline powder                                                                                                                                                                                                                                                                                                   |
| Chemical Structure | <br>The chemical structure shows a benzene ring with a carboxylic acid group (-COOH) at position 1, an ethoxy group (-OCH2CH3) at position 2, and a tert-butyl group (-C(CH3)3) at position 4. The Parchem logo is overlaid on the structure. |
