

## Typical Product Specifications & Properties

# 4-(Trimethylsilyl)-3-Butyn-2-One

CAS Number: : 5930-98-3

| Specifications      | Limits                  |
|---------------------|-------------------------|
| Molecular weight    | 140.26                  |
| Refractive Index    | 1.442                   |
| Flash Point         | 83 &deg;F               |
| Storage Temperature | Flammables area         |
| Boiling Point       | 156 &deg;C              |
| Density             | 0.854 g/mL at 25 &deg;C |
