## Typical Product Specifications & Properties

# 4-vinyl phenol

CAS Number: : 2628-17-3

| Specifications   | Limits                                                           |
|------------------|------------------------------------------------------------------|
| Appearance       | white to pale yellow solid                                       |
| Assay            | 99.00 to 100.00 %                                                |
| Melting Point    | 59.00 to 68.00 °C. @ 760.00 mm Hg                                |
| Boiling Point    | 163.00 to 168.00 °C. @ 0.50 mm Hg                                |
| Vapor Pressure   | 0.168000 mm/Hg @ 25.00 °C                                        |
| Flash Point      | 140.00 °F.TCC                                                    |
| logP (o/w)       | 2.16                                                             |
| Odor             | Chemical, phenolic, medicinal with sweet musty and meaty nuances |
| Taste            | Phenolic, medicinal, spicy                                       |
| Refractive Index | 1.54500 @ 20.00 °C                                               |
| Odor Type        | phenolic                                                         |
| Specific gravity | 1.03900 @ 25.00 °C                                               |
