## Typical Product Specifications & Properties

# 5-Bromo-4-Chloro-3-Indoxyl-b-D-Glucopyranoside

CAS Number: : 15548-60-4

| Specifications      | Limits                                                 |
|---------------------|--------------------------------------------------------|
| Molecular weight    | 408.63                                                 |
| EINECS              | 239-603-0                                              |
| Melting Point       | 249-251 °C                                             |
| Solubility          | DMF: 50 mg/mL, clear, colorless to very faintly yellow |
| Storage Temperature | -20°C                                                  |
| Alpha               | -81 ° (c=1, DMF)                                       |
