5-Cyclopropyl-2-(piperidin-3-yloxy)pyridine dihydrochloride

Specifications	Limits
Chemical Structure	 <p>The chemical structure shows a complex polycyclic molecule, likely a steroid or alkaloid derivative. It features multiple fused rings, including a benzene ring with two hydroxyl groups (one red, one black). A nitrogen atom (blue) is part of a ring system. Stereochemistry is indicated with wedges and dashes. A watermark 'parchem fine & specialty chemicals' is visible in the background.</p>

415 Huguenot Street, New Rochelle, New York 10801
