## Typical Product Specifications & Properties

# 5-Fluoropyridine-2,4-diamine

CAS Number: : 16097-51-1

| Specifications     | Limits                                                                                                                                                                                                                                                                                                                   |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Chemical Structure | <br>The chemical structure shows a pyridine ring with a fluorine atom at the 5-position and amino groups at the 2 and 4 positions. The structure is drawn with stereochemistry, showing the relative positions of the atoms and bonds. |
