Typical Product Specifications & Properties

5-Tert-butylloxazole-4-carboxaldehyde

CAS Number: : 173908-62-8

Specifications	Limits
Chemical Structure	 The chemical structure shows a benzene ring with a tert-butyl group at the 5-position and a carboxaldehyde group at the 4-position. The tert-butyl group is attached to the benzene ring via a quaternary carbon atom. The carboxaldehyde group is attached to the benzene ring via a carbonyl group. The tert-butyl group is shown in a perspective view, with the central carbon atom bonded to three methyl groups. The carboxaldehyde group is shown in a perspective view, with the carbonyl carbon atom bonded to an oxygen atom and a hydrogen atom. The benzene ring is shown in a perspective view, with the tert-butyl group and the carboxaldehyde group attached to it.
