Typical Product Specifications & Properties

6-Fluoronorleucine

CAS Number: : 1546395-30-5

Specifications	Limits
Chemical Structure	 The chemical structure of 6-Fluoronorleucine is a complex polycyclic molecule. It features a central benzene ring fused to a five-membered ring containing a nitrogen atom. A fluorine atom is attached to the six-position of the benzene ring. The structure also includes several hydroxyl groups and a carboxylic acid group, with stereochemistry indicated by wedges and dashes.
