

## Typical Product Specifications & Properties

# 6-Isopropyl-2-(piperazin-1-yl)benzo[d]thiazole

CAS Number: : 1242928-21-7

Specifications	Limits
Chemical Structure	 <p>The chemical structure shows a benzothiazine core. A benzene ring is fused to a six-membered ring containing two oxygen atoms. Attached to the benzene ring is an isopropyl group (CH(CH3)2) and a piperazine ring (a six-membered ring with two nitrogen atoms). The structure is drawn with stereochemistry indicated by wedges and dashes. A watermark 'parchem fine &amp; specialty chemicals' is visible in the background.</p>
