

Typical Product Specifications & Properties

6-Methyl-6-hepten-2-one

CAS Number: : 1193-70-0

Specifications	Limits
Chemical Structure	 <p>The chemical structure of 6-Methyl-6-hepten-2-one is shown. It is a branched ketone with a seven-carbon chain. The second carbon from the right is a carbonyl group (C=O). The sixth carbon from the right has a methyl group attached. The structure is drawn with stereochemistry: the methyl group on the sixth carbon is on a wedge, and the hydrogen on the same carbon is on a dash. The carbonyl oxygen is on the left. The structure is overlaid with a large, faint 'parchem' watermark and the text 'fine & specialty chemicals'.</p>
