

## Typical Product Specifications & Properties

# 6-Methylindan-5-ol

CAS Number: : 110087-13-3

Specifications	Limits
Chemical Structure	 <p>The chemical structure of 6-Methylindan-5-ol is a tricyclic molecule. It features an indane core (a benzene ring fused to a five-membered ring containing an oxygen atom). A methyl group is attached to the 6-position of the indane system. A hydroxyl group (-OH) is attached to the 5-position of the indane system. The structure is shown with stereochemistry: the hydroxyl group is on a wedge, and the methyl group is on a dash. The molecule is labeled with 'H', 'O', and 'N' atoms. A watermark 'parchem fine &amp; specialty chemicals' is visible in the background.</p>
