

Typical Product Specifications & Properties

6-(Thiophen-3-yl)picolinic acid

CAS Number: : 1014-15-9

Specifications	Limits
Chemical Structure	 <p>The chemical structure of 6-(Thiophen-3-yl)picolinic acid is shown. It consists of a thiophene ring substituted at the 3-position with a picolinic acid moiety. The picolinic acid moiety is a pyridine-2-carboxylic acid derivative, where the carboxylic acid group is at the 2-position and the thiophene ring is at the 6-position. The structure is drawn with stereochemistry indicated by wedges and dashes. A watermark for 'parchem fine & specialty chemicals' is visible over the structure.</p>
