

Typical Product Specifications & Properties

7-Benzyl-1H-purine-2,6(3H,7H)-dione

CAS Number: : 19844-93-0

Specifications	Limits
Chemical Structure	 <p>The chemical structure shows a purine ring system with a benzyl group attached at the 7-position. The purine ring has carbonyl groups at positions 2 and 6, and a hydrogen atom at position 1. The benzyl group consists of a methylene group attached to a phenyl ring. The structure is overlaid with a 'parchem' watermark and the text 'fine & specialty chemicals'.</p>
