

Typical Product Specifications & Properties

7-Hydroxy-2,8-dimethyl-3-o-tolyl-chromen-4-one

CAS Number: : 101723-36-8

Specifications	Limits
Chemical Structure	 <p>The chemical structure shows a chromen-4-one core. At position 7, there is a hydroxyl group (-OH). At position 2, there is a methyl group (-CH₃). At position 8, there is a methyl group (-CH₃). At position 3, there is an o-tolyl group, which is a benzene ring with a methyl group (-CH₃) at the ortho position relative to the attachment point.</p>
